

ST. JOHN THE BAPTIST GREEK ORTHODOX CHURCH

Exterior Lighting Concept

You are our strength and our refuge, and for Your name's sake
You will guide and sustain us. So we said, "Let us rise up and build."
Then we set our hands to do this good work.
Ps. 30:3 & Neh. 2:18

Almost twenty years in the making, the building project addresses current and anticipated needs in our community. As we near the groundbreaking, we remember with gratitude those through whose efforts the church of St. John the Baptist was built. We also look forward to the future and pray that our loving God will continue bless our efforts to build upon the foundation that has been entrusted to us.

Project Highlights

- Elevator, exterior ramp, and accessible bathrooms both at church and basement levels
- Additional space: new office, multi-purpose room, and storage space. These additions will bring improvements to several areas of parish life: easier access to the library, a permanent space for the bookstore, and more flexibility in Sunday school and ministry scheduling.
- Expansion of our church hall to allow for seating equivalent to our current nave
- Repair and upgrade to current sanctuary ceiling and bell tower to eliminate leakage and allow for future installation of iconography

Project timeline

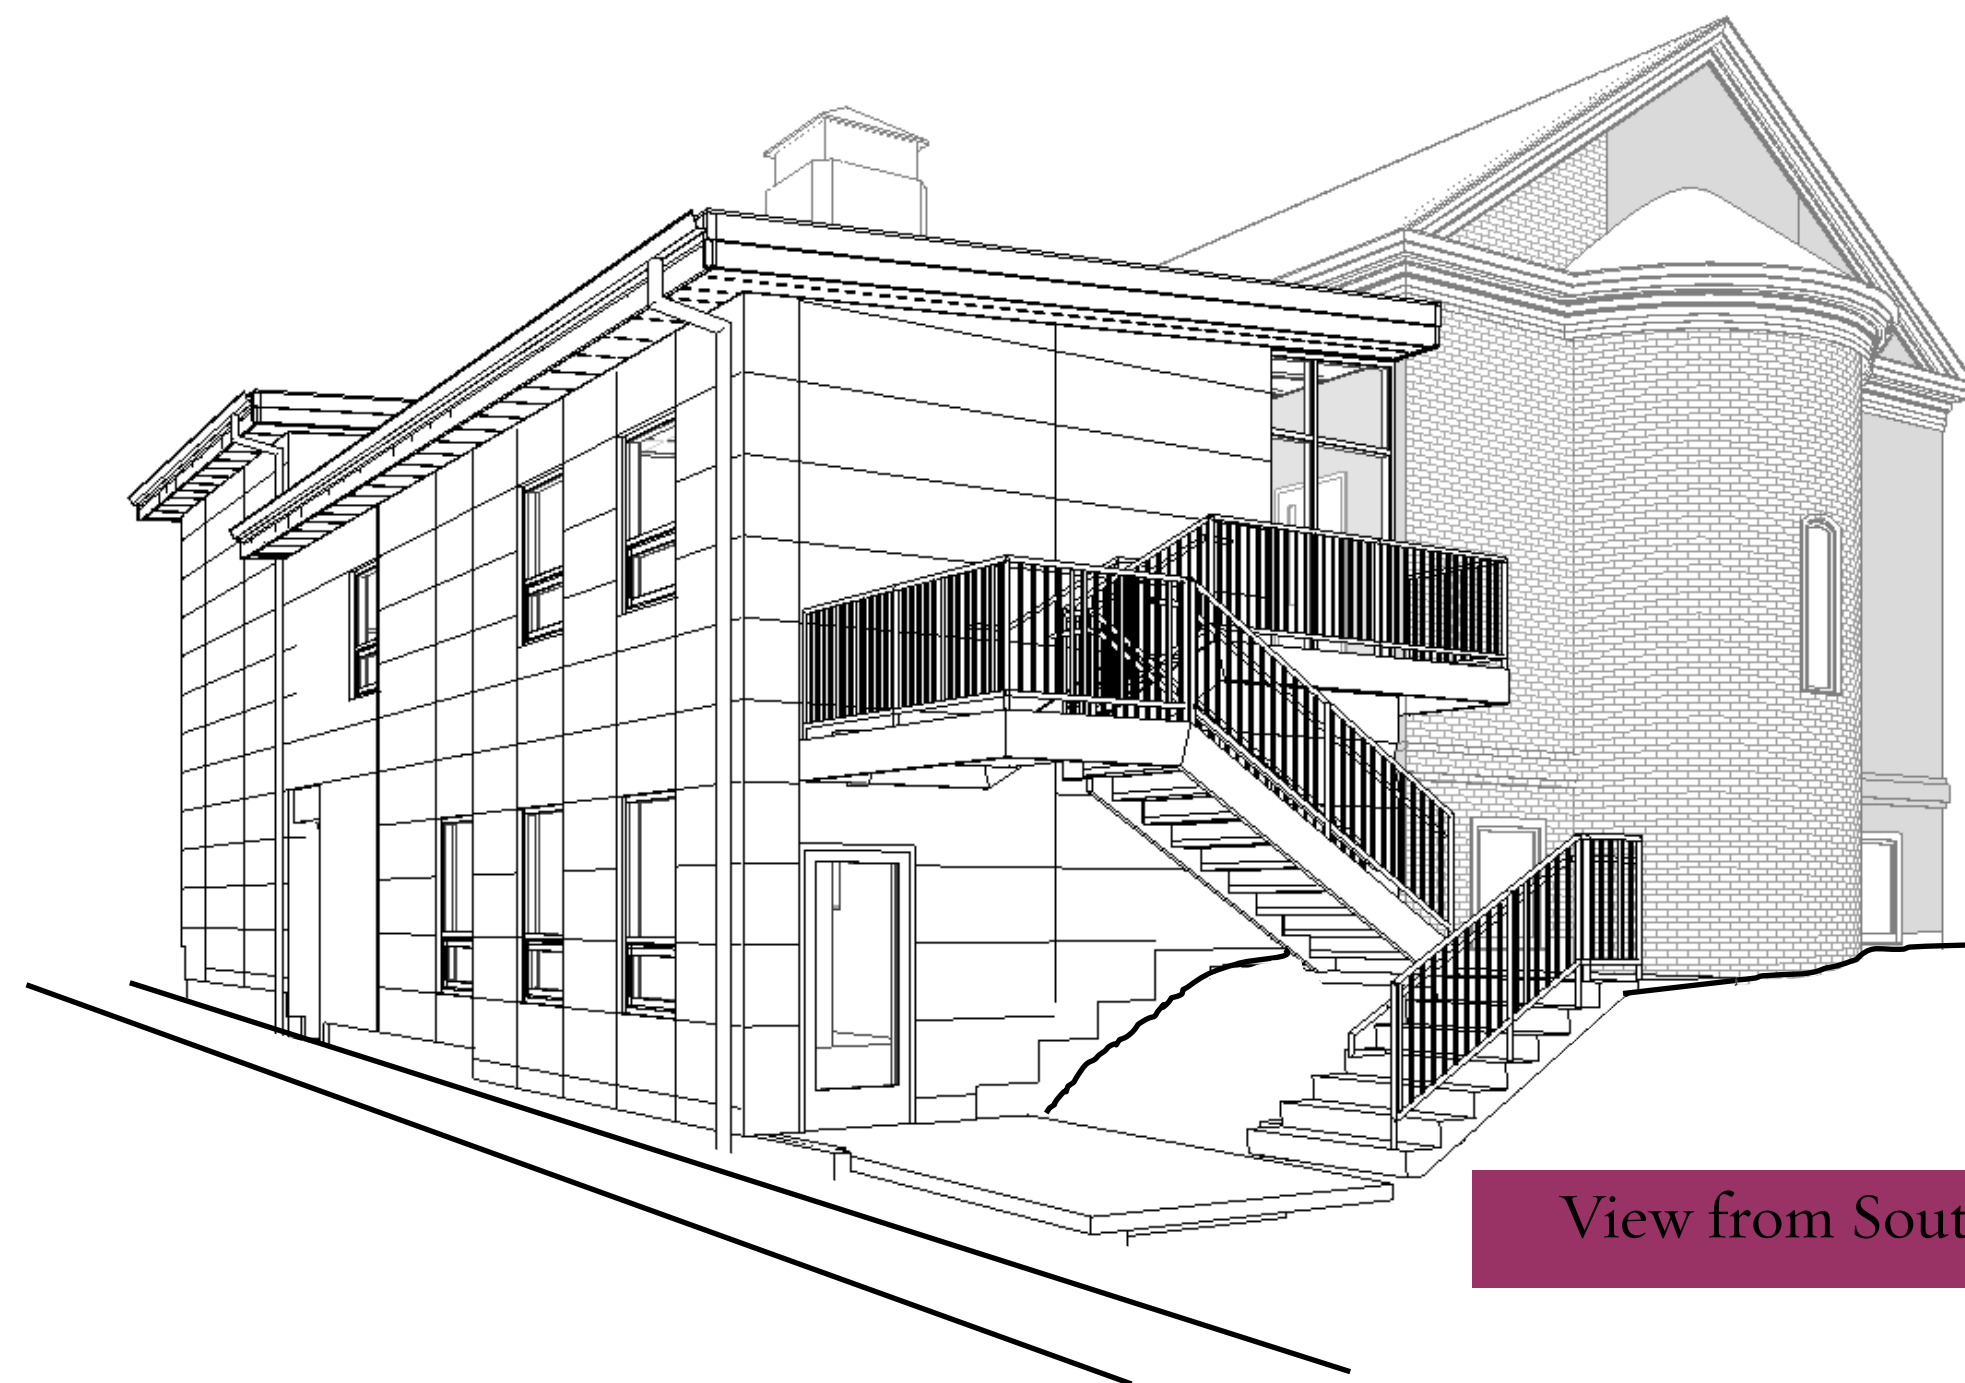

Groundbreaking: Summer 2017
Completion: Early 2018
